Date Submitted: _____

INDT 21 : Basic Occupational Health and Safety

ACTIVITY 1: Create an infographic that clearly answers the following questions:

1. What law is the Labor Code of the Philippines?
2. What is RA 11058 all about?

Guidelines:

- Create your infographic using Canva, PowerPoint, Google Slides, Adobe Express, or any similar design tool.
- Present the information in a clear, accurate, and visually appealing way.
- Use reliable sources and include your references.
- Make sure the text, images, charts, and other visual elements support your information.
- Submit your final infographic through Google Classroom.

RUBRIC:

CRITERIA	4 – EXCEEDS EXPECTATIONS	3 – MEETS EXPECTATIONS	2 – APPROACHES EXPECTATIONS	1 – DOES NOT MEET EXPECTATIONS	CRITERIA
CONTENT – 10 POINTS	10 pts – Uses appropriate terms, vocabulary, and jargon accurately. Provides sufficient and relevant data to support claims. Data clearly demonstrate trends or claims.	8 pts – Uses appropriate terms and vocabulary with minor errors. Provides adequate data to support claims. Data generally demonstrate trends	5 pts – Uses limited appropriate terms and vocabulary. Provides some data, but information is insufficient to fully support claims. Data may not clearly	3 pts – Lacks appropriate terminology. Provides insufficient facts or data to support claims. Data do not demonstrate the intended trend or claim. Sources are	

	Uses reliable and credible sources.	or claims. Uses reliable sources.	demonstrate trends or claims.	poor, questionable, or missing.	
CLARITY – 5 POINTS	5 pts – The main claim or idea is clear, obvious, and easy to understand. Information is concise and well-organized. Graphics and visuals are purposeful and enhance understanding.	4 pts – The main claim or idea is understandable. Information is generally organized. Graphics and visuals are appropriate and support understanding.	3 pts – The main claim or idea is present but may be unclear. Some information or visuals are unnecessary. Organization could be improved.	1 pt – The main claim or idea is confusing or difficult to identify. Information is poorly organized. Visuals are distracting or unnecessary.	
PRESENTATION – 5 POINTS	5 pts – Design elements clearly support the content. Visuals are strongly connected to the information and create an effective visual flow. Visualizations are appropriate for the data and claims.	4 pts – Design elements support the content. Visuals connect to the information and create a clear visual flow. Visualizations are appropriate for the data and claims.	3 pts – Some design elements support the content, but visual flow is inconsistent. Visualizations are somewhat appropriate but could be improved.	1 pt – Design and visuals conflict with the content or claims. Visual flow is poor or distracting. Visualizations are inappropriate or misleading.
